

FridgeIQ™ FOB

Refrigerator Access Control

- **Medical-Grade Security:** A durable rotor latch ensures a secure seal every time, preventing unauthorized access to sensitive items.
- **Retrofits:** Completed without drilling or interruption of healthcare operations in under 30 minutes.
- **Normally Locked:** Access with key-fob
- **Standalone or Connected:** Works as a high-security standalone lock or connect to FreshTraq for remote management.

Upgrade to Smart Monitoring with FreshTraq™

Regulatory Compliance – FDA and health department compliant with downloadable reports for audits and inspections.

Safety and Loss Prevention – Real time analytics and alerts identify equipment issues early for proactive action to protect inventory.

Operational Efficiency – Automated monitoring eliminates manual checks and data entry. Remote troubleshooting ensures service technicians are deployed to the right place at the right time.
