

FridgeIQ™

RFID Refrigerator Access Control

Add refrigerators to your access control system with the retrofittable FridgeIQ. Medical-grade refrigerators become prox card, fob, smartphone and keypad enabled. Easily set up user parameters via a web portal or smartphone. Enjoy enterprise wide management from anywhere while viewing audit trails and access attempts.

Retrofit:

Completed without interruption of hospital operations.

Installation:

External mounting with no drilling or modifications to refrigerator.

Compatibility:

Use existing prox cards or RFID devices. Compatible with 125KHz & 13.56MHz RFID Prox cards, fobs and stickers. Enroll hundreds of users.

Set Up and Management:

Multiple levels of connectivity allows user to control via smartphone app, enterprise portal, or keypad.

WiFi/ethernet enabled for data and remote unlocking.

Smartphone App:

MicroTraQ, initializes and updates lock parameters and eliminates lock programming.

Portal:

ProxTraQ portal.
(details on back page)

Cloud enabled:

Mobile credentials, lock networking, and access data.

Lock Mechanism:

Durable rotor latch with proven reliability.

Power:

12V DC powered.
